

Welcome!

To the ETS – Query
Online Training Course

The **Query** functionality in Posting allows users to search for Crown mineral rights that are available before a posting request is submitted.

Revisions

Date	Revisions Type	Page Number
August 31, 2012	Conversion	All
May 10, 2013	Updated Query by Map	4 - 25
June 2016	Updated Query by Map	4-13
April 2020	Update Headers and links	All
December 2020	Update ETS login page	Various

Introduction

In this module, you will learn how to:

- Do a Query by Map
- Do a Query by Land
- Do an Expired Agreement Notification Request
- Retrieve Queries

Note: *As this course demonstrates the use of the GeoView tool, the data in some instances may not portray the actual Crown or Freehold ownership and is not specific to a particular mineral type map.*

Query by Map

This option allows you to search for available Crown mineral rights graphically by entering an area of interest and viewing a map. You can then load the rights into the Public Offering posting request form. You can also view where the Crown owns the minerals and where the minerals are non-Crown (Freehold).

Tip: Direct purchase requests cannot be processed through the Query by Map function. If you want to use the Query by Map for information purposes, you can still view the graphic output however, you must enter the information for a Direct purchase request manually.

Query Results are displayed

The screenshot shows the 'Alberta Energy Oil Sands' web application interface. At the top, there is a navigation bar with 'Home', 'Queries', 'Tools', 'Analysis', 'Go to Location', 'Bidding', and 'Posting'. Below this is a toolbar with 'Layer List', 'Query', and 'Filter' buttons. The main content area is divided into a results pane on the left and a map on the right. The results pane shows 'Query Results (4)' with a list of four items: 'Oil Sands Area: ATHABASCA OS', 'Oil Sands Area: COLD LAKE OS', 'Oil Sands Area: PEACE RIV OS AREA #1', and 'Oil Sands Area: PEACE RIV OS AREA #2'. The map on the right shows the outline of Alberta with various regions highlighted in green and purple, corresponding to the query results. A scale bar at the bottom indicates a scale of 1:7,152,478.

[Back to Query by Map](#)

The screenshot displays the 'Posting' interface of the Alberta Energy Oil Sands web application. The top navigation bar includes 'Home', 'Queries', 'Tools', 'Analysis', 'Go to Location', 'Bidding', and 'Posting'. The 'Posting' menu is highlighted in yellow. Below the navigation bar, there are two selection tool buttons: 'Select by Point' and 'Select by Rectangle', both highlighted in yellow. A 'Request Posting' button with a green plus icon is also visible. A search bar contains the text 'I want to...'. The main area shows a grid of numbered sections, with some sections highlighted in yellow and others in purple. Three callout boxes provide instructions: '1. Click on Posting' points to the Posting menu; '2. Choose the Selection Layer' points to the Selection Layer dropdown; and '3. Click on Select by Point or Select by Rectangle' points to the selection tool buttons.

Sort geographically by: Land Disposed/Undisposed

This option allows you to search for available Crown mineral rights or active agreements for the land you enter.

- Selecting Rights Available will provide a report of all the Rights Available for the entered Land and Zone range.
- Selecting Agreements will provide a report of all the current Agreements in the entered Land and Zone range.

The report can be sorted geographically by land or by disposed/undisposed.

If the 'Expiring in' field is specified in an agreement type query, the query will return any agreements expiring in the specified time period.

If you request land and receive a status of **Expired Agreement - Not Posted**, this means that the agreement is being reviewed by the Alberta Energy to determine if it should be cancelled or if it qualifies for continuation.

Only when the continuation has been finalized or the agreement has been cancelled will the rights be available for posting.

Expired Agreement (Continued)

Expired Agreement Notification Request

Please enter the agreement number for which you want continuation decision information. You will be notified by email after the continuation decision has been made.

Comment:

Agreement Number:

TIP: Older agreements may require you to enter an Agreement Type Number. In those cases, a drop down box will be displayed to allow you to select the Type number.

You can request Alberta Energy to advise you when a continuation decision has been made on an expired agreement.

Once you have completed the request, select the Request Status page. The status in the request will be set to processing until it is complete at which time you will be sent an email advising you that a decision has been made.

After you have done a Query by Land or an Expired Agreement Notification Request, you can access the results by opening the Request Status page on the main menu.

Tip: If searching for more than one request, use the Start and End dates to retrieve all requests created within those dates or remove the Start Date to see all available information on the screen. The status of a Request will not automatically update on the screen. Click Retrieve to refresh the screen.

Resources

[ETS Support and Online Learning](#) provides access to relevant guides, course and other information

If you have questions, please contact

For PNG: Postings.Energy@gov.ab.ca or the Sales Helpdesk at (780)644-2300 or

for Oil Sands: OSTenure@gov.ab.ca

Congratulations!

**You have completed the ETS – Query
Online Training Course**

Please proceed to the subsequent modules detailing other
functionality of the Posting application.

If you have any comments or questions on this training module,
please forward them to the following email address:
