That material is publicly available through the Department's website at www.energy.alberta.ca. Reproduction of the presentation in any form is prohibited.

Important Documents

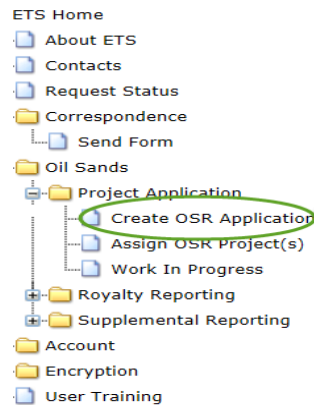

- Before beginning a New Project Application, consult the “OSR New Project Application Checklist”, which can be found on the Energy website:
<https://www.alberta.ca/oil-sands-forms.aspx>

Applications and checklists

- [Introduction to the Oil Sands Royalty \(OSR\) application process](#)↓, (PDF, 239 KB)
 - [Introduction to the cost allocation process](#)↓, (PDF, 590 KB)
 - [OSR new project application checklist](#)↓, (PDF, 179 KB)
 - [OSR project amendment application checklist](#)↓, (PDF, 180 KB)
 - [Economic evaluation data requirement](#)↓, (PDF, 231 KB) (for new applications, amendments and project amendments) [Excel](#)↗ (XLSX, 215 KB)
 - [Prior net cumulative balance](#)↓, (PDF, 231 KB): summary, capital cost detail, operating cost detail, revenue detail
- updated February 2, 2012. [Excel](#)↗ (XLSX, 471 KB)
- Also, make sure to have filled out the required Economics and PNCB data forms to be included in the ETS application.

New Project Application Submissions

- ETS user accounts for each company is setup by their Site Administrator. OSR Applications require form type 'Oil Sands- Project Application' and assignment of roles.
- Roles: Coordinator assigns OSR Projects and new Project Applications within the company. Creator creates applications. Submitter submits applications.
- Training module available here:
https://training.energy.gov.ab.ca/Courses/Oil_Sands_Roles.pptx
- Sign in to the ETS website: <https://ets.energy.gov.ab.ca/>

- **For new applications, click Create OSR Application**

- **You can access applications that are currently in progress with the Work In Progress node**

ETS Front Page

- Check to make sure the correct company ID and User name is shown on the first tab.
- Work left to right on the tabs, some tabs depend on information entered in previous tabs/sections.

Note: The tabs are not auto-save, remember to click “Save” before moving on to other tabs.

The screenshot shows the 'OSR Project Application' form. At the top is a blue header with the text 'OSR Project Application'. Below the header are several input fields: 'Project Name:', 'App. Type:', 'Ref. Number(s):', and 'Operator:'. A blue link labeled 'OSR Project Application Rules' is positioned below the 'Operator:' field. A horizontal row of tabs is visible, with 'Request' selected and highlighted in blue. Other tabs include 'Project(s)', 'Owner', 'Operator', 'Proj. Desc.', 'PNCB', 'Economic', 'Document', 'Roles', and 'Submit'. Below the tabs is a grey-bordered form area containing three rows of data: 'Created By:' with a dropdown menu showing 'EA0695_USER1', 'Status:' with the text 'Work in Progress', and 'Business Associate Id:' with a dropdown menu showing 'A6K5 - COMPANY ABC LTD.'. At the bottom of the form area are three buttons: 'Save', 'Delete Application', and 'Close'. The 'Save' button is circled in red. Navigation arrows are present on the left and right sides of the form area. At the very bottom of the page, there is a footer with the text 'Feedback Help Copyright © 1999 Government of Alberta'.

ETS Front Page (cont'd)

- Once "Save" is clicked, some additional information becomes available

Error report that can be viewed at any time throughout the Application Process. Errors MUST be fixed to submit the application; warnings just need follow up.

You can save a PDF copy of your application through this link; recommended before submission

ETS# that Alberta Energy will use to refer to your Project throughout the ETS Application phase

The screenshot displays the 'OSR Project Application' interface. At the top, a blue header bar contains the text 'OSR Project Application' and the application number '363608'. Below this, the form includes fields for 'Project Name:', 'Ref. Number(s):', 'Operator:', and 'App. Type:'. There are three blue hyperlinks: 'OSR Project Application Rules', 'Warning/Error Report', and 'OSR Project Application Report'. A navigation bar contains tabs for 'Request', 'Project(s)', 'Owner', 'Operator', 'Proj. Desc.', 'PNCB', 'Economic', 'Document', 'Roles', and 'Submit'. The 'Created By:' field shows 'EA0695_USER1', the 'Status:' is 'Work in Progress', and the 'Business Associate Id:' is 'A6K5 - COMPANY ABC LTD.'. At the bottom, there are 'Save', 'Delete Application', and 'Close' buttons. The footer contains 'Feedback Help Copyright © 1999 Government of Alberta'. Three callout boxes with arrows point to the 'Warning/Error Report', 'OSR Project Application Report', and the application number '363608' respectively.

Owner Tab

- Total ownership must equal 100% or you will get an error. Remember to upload an Operating Agreement if you are operating on behalf of someone else.

Owner(s)	Ownership %	Delete
A6K5 - COMPANY ABC LTD.	100.00	<input type="checkbox"/>

Upload Operating Agreement:

- Enter your contact info, or if you've been here before, select your name from the drop down list to auto-fill the boxes.
- Click the “Operator same as owner” box if that’s true and the information on the next tab, “Operator”, will be auto-filled.

Operator same as owner

- Remember to click “Save” before moving on 😊*

Project Description Tab

- Project Overview & Development Plans: Either type your information into the box or upload a document
- If you choose to upload a document, it will be renamed to include the ETS tracking #

The screenshot displays the 'OSR Project Application' interface for application number 388872. The project name is 'Wonderful Oil Sands Project' and the application type is 'New'. The interface includes a navigation menu with tabs for Request, Project(s), Owner, Operator, Proj. Desc. (selected), PNCB, Economic, Document, Roles, and Submit. The 'Project Overview & Development Plans' tab is active, showing a text input area with a 4000-character limit and an upload section for documents. The upload section shows a file named 'R00388872.ProjectOverview.DOCX' with a 'Replace' button. A sidebar on the left lists other application components: AER Approvals, Lands, Wells, Agreements & Mineral Rights, Operations, Facilities, and Capital Assets. At the bottom, there are 'Save', 'Delete Application', and 'Close' buttons.

OSR Project Application 388872

Project Name: Wonderful Oil Sands Project App. Type: New

Ref. Number(s):

Operator:

[OSR Project Application Rules](#) [Warning/Error Report](#) [OSR Project Application Report](#)

Request Project(s) Owner Operator **Proj. Desc.** PNCB Economic Document Roles Submit

Project Overview & Development Plans

Provide Project Overview and Development Plans by entering text in the area below or by attaching the file using the browse option. Maximum 4000 characters for textbox.

AER Approvals

Lands

Wells

Agreements & Mineral Rights

Operations

Facilities

Capital Assets

Upload Project Overview and Development Plans document: [R00388872.ProjectOverview.DOCX](#)

Project Description Tab (cont'd)

- AER Approvals: Input the AER Scheme Approval number. It will automatically update to the most current scheme.

Note 1: You do not need to apply for everything covered in the most current scheme, Alberta Energy just uses the most up to date scheme approval # because old ones are rescinded.

Note 2: If you have a scheme approved in the same month as when you are applying for the New Project, you may choose the older one in order to get the correct Effective Date.

- You will need to include the associated scheme approval document. AER Scheme Applications may be sent via USB, CD/DVD,...

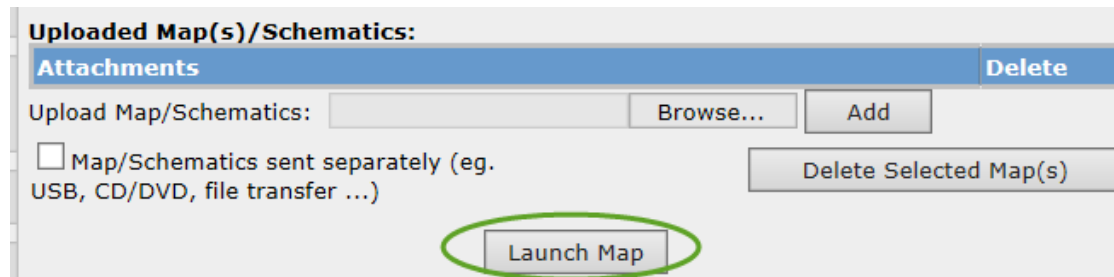

The screenshot displays the 'AER Approvals' section of a software interface. On the left, a sidebar contains 'Project Overview & Development Plans', 'AER Approvals', and 'Lands'. The main area is titled 'Current Application - Added Scheme(s):' and contains a table with the following data:

Scheme #	AER Approval Document	Effective Date	Delete
55510 A	R00388872.55510A.ERCBAApproval.PDF	2016/12/12	<input type="checkbox"/>

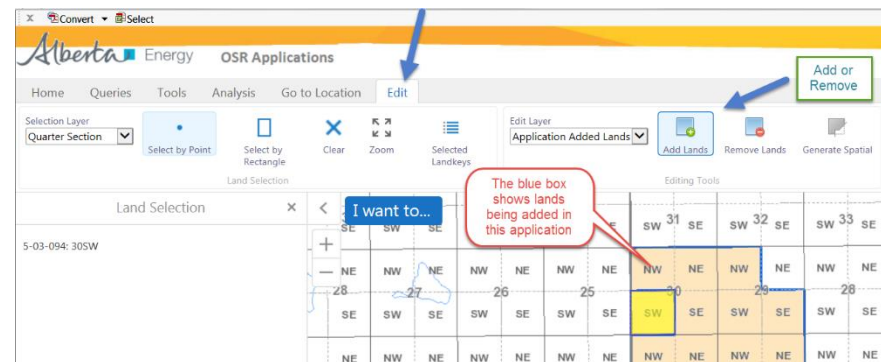

Below the table, there is a 'Scheme:' input field, 'Add' and 'Cancel' buttons, and a checkbox labeled 'AER Scheme Applications sent separately (eg. USB, CD/DVD, file transfer ...)'. A 'Delete Selected Scheme(s)' button is located at the bottom right of the main area.

Project Description Tab (cont'd)

- Once you have entered the scheme and clicked “Save”, the associated lands will be available for viewing via the “Launch Map” button

- All available lands from the added Scheme will be automatically added.
- If there are lands listed that you do not want included, use the map tools to remove them.
- If there are lands you want added, use the map tools to add them.

Project Description Tab (cont'd)

- Lands: Lands being included by this application will be shown here. Confirm this is correct.
- Wells: Wells associated with the OSR Application lands will be listed in the well report. The well screen displays explicit well information (e.g. Off Project Lands).
Note: Upon project approval, subsequent wells where the bottom/surface location are not entirely on project lands will not be added to the project; such wells will be reviewed once they are brought to the Department's attention.
- Agreements & Mineral Rights: Confirm the agreements are correct and aren't expiring soon.
- Operations: Confirm the recovery method in the Scheme is correct. Select your product - Clean Crude Bitumen, Blend, or Synthetic Crude Oil.
- Facilities: this screen is for explicit facilities (e.g. Off Project Lands).
- Capital Assets: Include a list of all Capital Assets being included with this project. You can upload a document.

PNCB Tab

- This is where you will add the PNCB spreadsheet that is found on the Energy website. We need you to use our templates so that we can upload the information into our databases.
- Include the PNCB Data (if applicable) and any supporting data for the PNCB. You can also send additional files by USB, CD/DVD...

The screenshot shows a web application interface with a navigation bar at the top containing tabs: Request, Project(s), Owner, Operator, Proj. Desc., **PNCB**, Economic, Document, Roles, and Submit. The main content area is divided into two sections:

- PNCB Data:** Contains radio buttons for "Not Applicable" and "Upload Excel File" (which is selected). Below the "Upload Excel File" option is a link to "R00363608.PNCB.xls" and a "Replace" button. Two blue arrows point from the "Operator" tab in the navigation bar to the "Upload Excel File" radio button and the "Replace" button.
- PNCB Supporting Data:** Contains a table with the following structure:

Attachments	Delete
R00363608.PNCBSupporting1.XLSX	<input type="checkbox"/>

Below the table is an "Upload Excel File:" section with a "Browse..." button, an "Add" button, and a "Delete Selected File(s)" button. At the bottom of this section is a checkbox labeled "File to be sent on CD".

At the bottom of the interface are navigation arrows and buttons for "Save", "Delete Application", and "Close".

Economic Tab

- If applicable to your application, please upload the required Economics data spreadsheet. The template can be found on the Energy website.

Applications and checklists

- [Introduction to the Oil Sands Royalty \(OSR\) application process](#) ↓, (PDF, 239 KB)
- [Introduction to the cost allocation process](#) ↓, (PDF, 590 KB)
- [OSR new project application checklist](#) ↓, (PDF, 179 KB)
- [OSR project amendment application checklist](#) ↓, (PDF, 180 KB)
- [Economic evaluation data requirement](#) ↓, (PDF, 231 KB) (for new applications, amendments and project amendments) [Excel](#) [↗] (XLSX, 215 KB)
- [Prior net cumulative balance](#) ↓, (PDF, 231 KB): summary, capital cost detail, operating cost detail, revenue detail
- updated February 2, 2012. [Excel](#) [↗] (XLSX, 471 KB)

Request	Project(s)	Owner	Operator	Proj. Desc.	PNCB	Economic	Document	Roles	Submit
---------	------------	-------	----------	-------------	------	-----------------	----------	-------	--------

Provide Economic Evaluation data using one of the following options:

Upload Excel File [R00363608.Economic.xlsx](#)

Not Applicable

Note: If you are submitting an Economic Evaluation spreadsheet with this application, you are required to submit a Reserves Report. Please ensure that the Reserves Report and supporting files are attached in ETS (under the "Document" tab), or emailed to Alberta Energy. Without this information, your application cannot be deemed complete. Files can be emailed to: OSRApplications.Energy@gov.ab.ca

Document Tab

- This tab can be used to submit any additional information to support the application
- Most file formats accepted
- There is a 10 MB limit per file
- This tab must be used to submit class 3 estimate related documentation when required
- This tab must be used to submit a 3rd party reserves report when an economic evaluation spreadsheet is required.

The screenshot shows a web application interface with a navigation bar at the top containing tabs: Request, Project(s), Owner, Operator, Proj. Desc., PNCB, Economic, Document (highlighted in blue), Roles, and Submit. Below the navigation bar is a section titled 'Additional Documents' with a 'Delete' button. Underneath, there is a 'Delete Selected File(s)' button, an 'Upload File:' text input field, a 'Browse...' button, and an 'Add' button. At the bottom of the interface, there are three buttons: 'Save', 'Delete Application', and 'Close', flanked by left and right navigation arrows.

[Feedback](#) [Help](#) Copyright © 1999 Government of Alberta

Roles Tab

- If you are both Creator and Submitter for this application, add your user id as the Submitter; otherwise add the user id who will be submitting on your behalf.

The screenshot shows a web interface with a horizontal menu at the top containing tabs: Request, Project(s), Owner, Operator, Proj. Desc., PNCB, Economic, Document, Roles (highlighted in blue), and Submit. Below the menu is a form with four sections, each with a blue header and a white input field with a dropdown arrow and an 'Add' button:

- Creator**: Input field with dropdown arrow and 'Add' button.
- Viewer**: Input field with dropdown arrow and 'Add' button.
- Submitter**: Input field containing 'EA0695_USER1' with a 'Delete' button to its right, followed by a dropdown arrow and an 'Add' button.
- Delegate**: Input field with dropdown arrow and 'Add' button.

At the bottom of the form are three buttons: 'Save', 'Delete Application', and 'Close'. There are also left and right navigation arrows on the bottom edge of the form area.

- If any other user requires access to this application (manager, coworker, etc), make sure to add these other users to the respective role. For example, if you are going to be away and a coworker will be taking over this application while you're gone, add them here.

Submit Tab

- We made it! This is the final tab. Upload a signed Authorization Letter here. Also include any additional notes you think we may find useful.
 - Whether or not additional info is being sent separately
 - Something referring to any warnings you have with the submission
 - Comments about the errors (even though you had to fix them for submission)
 - Etc.
- Remember to click “Submit”!

Request Project(s) Owner Operator Proj. Desc. PNCB Economic Document Roles **Submit**

NOTE: Submissions made after 4:30 PM will be processed on the next business day.

Upload Signed Authorization Form: [R00363608.AuthorizationForm.PDF](#)

Briefly describe or note any specific information or instructions pertaining to the submission of the application.
Maximum 4000 characters for textbox.

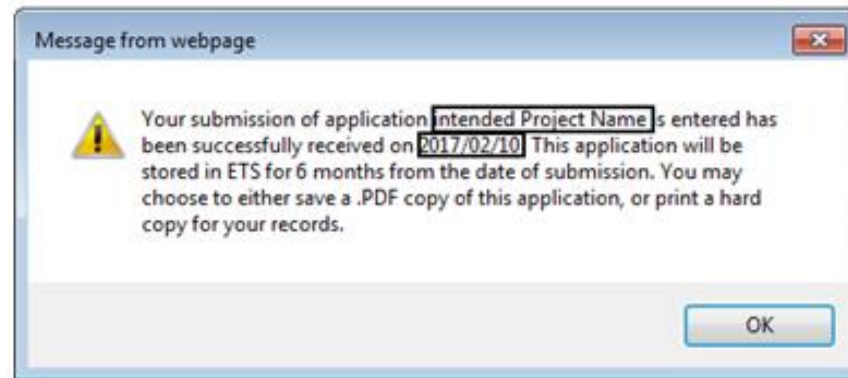

Submit Tab

- Validations may return Errors and/or Warnings.
 - Warnings: Can be left for submission
 - Errors: Must be fixed prior to submission
- Where there are warnings only, you may continue to complete the submission, or cancel and make further changes.

The screenshot displays a web interface with three tabs at the top: "OSR Project Application Rules", "Warning/Error Report", and "OSR Project Application Report". The "Warning/Error Report" tab is active, showing a "Warning(s):" section with two items: "- Added Scheme ##### has effective date in current month, submitted application date will be affected" and "- Agreement ##### participants differ from the Project Owners." Below the warnings is a table with columns: Request, Project(s), Owner, Operator, Proj. Desc., PNCB, Economic, Document, Roles, and Submit. A modal dialog box is open in the center, containing the text: "There are warnings related to your application. Are you sure you want to continue with your submission?". The "Continue" and "Cancel" buttons in this dialog are circled in red. At the bottom of the page, there are navigation buttons: "Submit", "Save", "Delete Application", and "Close".

Submit Tab

- A confirmation message should appear once the application has been recorded as submitted.

- Recently submitted applications may be found under the Work In Progress option using the status 'submitted'.

ETS #	Project Name	Status	Files	Last Updated YYYY/MM/DD	Last Modified By	Creator
389356	intended Project Name is entered	Submitted	Report: Pdf Warning: Pdf Well: Pdf PNCB: xlsx Economic: xlsx	2017/02/10 17:29:02	DD	DD

Additional Information

- Remember to check your Error/Warning report before submitting
 - Warnings: Can be left for submission
 - Errors: Must be fixed prior to submission
- You may save a copy of your application using the “OSR Project Application Report” link

Questions?

OSR PROJECT APPLICATION TIPS - OASIS

Timelines:

- The Alberta Department of Energy submission date will be considered the official date of receipt of the project application.
- A day is from 8:00:00 a.m. of that morning to 7:59:59 a.m. the next morning according to the Alberta Department of Energy system.

Tips on Submitting a Project Application:

- Project Amendment – Application type ‘Amalgamation’ can only include existing approved projects.
- Project Amendment – Application type ‘Other’ applications requires a description entry.
- A New Project name must be unique within the operator’s existing projects.
- New Project applications can only be created by the owner.
- A choice of Yes or No is required for the options Application in the Alternative and the option to Include all Pending Application(s)
- Total ownership percentage must equal 100.00%

OSR PROJECT APPLICATION TIPS - OASIS

- Changes to ownership must be accompanied by a copy of the Operator Agreement.
- A New Project application which is a Qualifying Joint Venture must include a copy of the Joint Venture Agreement document.
- Project Amendments which are changed to be a Qualifying Joint Venture must include a copy of the Joint Venture Agreement.
- Only owners can add or remove lands in a project.
- Components of an OSR project should be are no more than 50 km apart.
- Wells cannot be located in more then one project.
- Lease participants must be the same as the Project Owners; otherwise, proof of lease control must be provided.
- A product of either Bitumen, Blend, or SCO must be included in the Oil Sands Product List

OSR PROJECT APPLICATION TIPS - OASIS

- A description is required if 'Metal' or 'Other' is included in the Oil Sands Product List
- Project Overview and Capital Asset Information may be uploaded; otherwise text entry is required.
- Only certain types of attachments are allowed in the application. Generally accepted types of attachments allowed are .DOC, .XLS, .PDF, .JPEG, .BMP, .TIF and .TXT but not all attachment types are available for each area.
- The template for the Economic Evaluation Spreadsheet is found on the Alberta Energy website. When uploading this Excel file into the application, the file template must not be altered.
- All errors within the application must be cleared before submission

Confirmation of Receipt:

- Upon successful submission of the Application, an automated time stamped response will be generated confirming
