Metallic and Industrial Minerals Secondary Mineral Lease Application

Please submit each lease application on its own form.

A metallic and industrial minerals secondary mineral lease is for the recovery of metallic and industrial minerals from a surface operation that is processing sand, gravel, clay, marl, peat, topsoil, or any other surface material.

In order to hold a secondary mineral lease, the lessee must also hold a Surface Material Lease (SML), be the owner of the surface, OR have authorization from the holder of an SML or owner of the surface, on the location of the secondary mineral lease. If the surface is owned or leased by someone other than the applicant, please provide the authorization with the application.

It is important that you properly complete this form. If you are applying as a person, you must provide your full name. Full payment must be received before your application is processed.
